Student Grievance Redressal Committee

The Student Grievance Redressal Committee (SGRC) is established to ensure a transparent, fair, and accountable environment across the campus. The primary objective of the committee is to address and resolve legitimate student grievances in a time-bound manner, strictly upholding the principles of natural justice.

The SGRC acts as a safe, unbiased, and confidential platform where students can voice concerns regarding academic, administrative, or campus-life matters without fear of retaliation. Students are encouraged to reach out to any of the committee members listed below for a confidential discussion, or to formally lodge a complaint.
